REPORT OF CEMETERY COMMISSION

Some of the improvements this year were gravelling the avenues in the old cemetery, and a new entrance and exit established at the north end of Section 4.

We are very grateful to Mr. Walter G. Perry for his interest in the cemetery, and his gift which made possible much needed attention to the old part of Village Cemetery, Section 1. All leaning, broken and fallen slate, marble and granite slabs and memorials were taken care of, and the old private tombs near the south entrance were repaired. Several of these tombs had broken roof stones which had fallen in, and these were repaired with new cement construction and covered with earth. All entrance doors to the tombs have been sealed with cement.

For all this work we thank Mr. Perry.

The commission would recommend that all lot corner posts in the Pine Grove Cemetery be reset to ground level so mowing time can be reduced.

The commission would recommend that no trust fund be accepted by the town for less than $100, and that all cemetery trust funds be increased, when possible, to $200, so that proper care and maintenance can be given.

LOUIS M. WEBB,
GEORGE A. BALDWIN,
PHILIP J. YON,

AUDIT PROCEDURE

The accounts and records of all town officials charged with the custody, receipts and disbursement of public funds were examined and audited. Vouchers and cancelled checks were compared with supporting invoices and payrolls as well as entries in the books of record. Receipts were checked by source insofar as possible and totals of receipts and expenditures verified. Book balances were verified by comparison with reconciled bank balances made from statements obtained from depositary banks. Verification of uncollected taxes was made by mailing notices to delinquent taxpayers as indicated by the collector's records.

Conclusion;

The accounts and records of all town officials were found in good condition and the accounting procedure conformed to the uniform system prescribed by this Division.

The provision of Section 31, Chapter 211, of the Laws of 1939, require that this report or a summary of its essential features shall be published in the next annual town report.

We extend our thanks to the officials of the Town of Fitzwilliam for their assistance during the course of the audit.

REPORT OF THE LIBRARIAN

The increasing cost of books finally met us head on this past year and in October we began worrying whether or not we would be able to keep within our budget. The annual appropriation of $250 for books started to appear small indeed, in spite of the Esdaile Fund which we fell back on for biography, poetry and essays. The average novel nowadays runs around $3.25 and it is not uncommon to find the more lengthy works priced around $4. Since fiction is largest in demand our responsibility is to keep the reading public happy and, in order to offset partially this increase in book prices, we are asking for $300 for our book appropriation this year. The extra $50 will keep our buying at the same level, and that is an optimistic way of saying that we hope prices will not continue to rise in 1949.

There are a few misguided souls laboring under the belief that a library is useless. Any partially sane individual can well understand the importance of the role a library plays in a community, that responsibility of dispensing information and enlightenment, a source for education or relaxation. Slowly but steadily we are getting on our feet and soon will be operating at maximum efficiency.

A few months ago the Library received as a gift six etchings from Miss Katharine Kimball of Bath, England. Miss Kimball is a well-known etcher here and abroad, and an entire room in The Victoria Art Museum at Bath is devoted to her work. Miss Kimball is a native of Fitzwilliam and passed her childhood days in the Fullam Homestead on Fullam Hill. It is especially fitting that the Library should have some of Miss Kimball's works, and we hope that before long we may have a suitable place to hang them.

The Library is also deeply grateful to the Fitzwilliam Art Center who presented us last winter with two watercolor paintings by the young Chinese artist, Chen Chi, "The Red Door" and "A Street in Shanghai" are both exceptional

paintings of this young artist's fine and delicate work. These works of art, too, deserve more prominent places in the Library.

We wish to thank Mrs. Carleton E. Boyce for carrying books to and from the Depot readers.

Total circulation for 1948 was 4,670, a rise of 326 over last year. Full statistics may be seen in our booklist report of January last.

ANDREW C. NEAL,
Librarian.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Fitzwilliam:

I herein submit my sixth annual report as Superintendent of Schools.

The expanding role of public education and the impending growth of the school population, as revealed by the last school census, emphasizes the need for additional services in the schools. In 1944 the school district employed seven teachers with an enrollment of 114 pupils, including the ninth grade. The enrollment for the year ending in June 1945 was 96 pupils with the same number of teachers and grades. The following year only four teachers were employed to serve the needs of 101 pupils in the eight grades. At this time the pupils were classified so that all pupils in one grade attended the same school. This arrangement resulted in much greater educational efficiency.

During the school year 1947-1948 the total enrollment had increased to 127 pupils, not including the pupils who had attended schools in other districts for a part of the school year. Five teachers were employed for grades 1-8 inclusive. The enrollment at the beginning of the school year in September 1948 includes 132 pupils. The pre-school census indicates that there will be more than twenty pupils in Grade one. With seven pupils in the present eighth grade graduating class, it appears that there will be nearly 150 pupils at the beginning of the school year in September 1949. With this increase in enrollment, which will continue for at least five years, and the numerous activities that are being added to the school program, it appears necessary to employ one additional teacher.

Another alternative to consider would be the plan of transporting all pupils in Grades seven and eight to a well equipped Junior High School in another district. Under this

plan the Fitzwilliam School District would maintain two school buildings with four teachers.

The provision for an adequate supply of water at the Junior High School building also requires action by the School District.

CONCLUSION

The Fitzwilliam Schools have adequate supplies, good text books, and well prepared teachers. The Columbian School makes a good primary unit, but lacks playground space, modern plumbing and facilities for the school lunch.

The congestion in the other schools will undoubtedly be relieved in part by an additional teacher.

The three heaters at the Junior High School building should be replaced by a central heating plant.

New blackboards, maps, and additional artificial lights have improved the classroom work. A new large size Frigidaire has been added to the school lunch facilities.

I wish to thank the members of the School Board, teachers and other school employees, parents and citizens for their cooperation and services to the Fitzwilliam School District.

Respectfully submitted,
JOHN H. FRYE,
Superintendent.

REPORT OF THE COMMITTEE ON CONSOLIDATION OF SCHOOLS

Members of the committee have, during the past twelve months, attended meetings of the Cheshire Lay-Professional Council, State School Board Association, State Department of Education, and have talked with members of school boards of surrounding towns.

As a result of these meetings it has become clear that only through cooperating and planning with other towns can we solve our consolidation problems. The educational trend throughout the state is toward cooperative planning among school districts. It is evident that individual small towns cannot afford the high cost of building and the maintaining of a good educational program through the eight grades. A cooperative school means joining with some other town or towns, forming a Cooperative School District, and offering better buildings and educational program than an individual town could support alone.

The State Department of Education is presenting a bill to the Legislature authorizing the formation of cooperative school districts. Without such a bill it would be impossible under the existing state laws to form cooperative school districts. Also the possibility of Federal Aid will play an important part in the future building program of schools in New Hampshire.

This committee recommends that the study of cooperative schools be continued. Enrollment in our schools is increasing so rapidly that it will be necessary to take some action as soon as the Legislature has acted upon the educational bills. It is understood that a sub-committee of the Town Survey Committee, has been formed to study the educational problems of the Town of Fitzwilliam. This sub-committee should be well equipped to carry on the work that has al-

ready been started and should receive the whole hearted support of every citizen of Fitzwilliam.

REPORT OF THE FOREST FIRE WARDEN

Your local organization to prevent and extinguish brush and woods fires is glad to report a good year of forest protection in 1948. In spite of danger conditions nearly equalling at times those of 1947 when great losses were suffered in New Hampshire and New England, fire damage and loss this year have been gratifyingly low.

With the continuing cooperation of all the people, we can hope to have another successful year in 1949. Let us remember that in any year, over 90% of all fires are caused by carelessness and that all of these man-caused fires are preventable.

Today, we have more slash and uncut grassland than for many years in the past. Smokers, campers and tourists who use our outdoors are also more numerous than ever before. We must therefore be ready for fires which might occur but, above all, prevention by everyone is the greatest need.

A few simple precautions taken by every citizen will help, as follows:

(1) Always get a written permit from the warden before kindling a fire outdoors when the ground it not covered with snow.

(2) If you smoke, always extinguish matches and tobacco before dropping or throwing them down. In automobiles, always use the ash trays.

(3) Report fires and smokes to the warden without delay.

The observance of these and other simple rules will go far to insure safety from fire damage and your cooperation in this way is earnestly solicited.

F. J. BAKER,
District Fire Chief.

1948 FIRE RECORD

Number of Fires, 2.
Acreage Burned, 1¾.
Number of Fire Permits Issued, 52.

Respectfully submitted,

CLARENCE M. DAMON,
Forest Fire Warden.
